

Accreditation

Bronson laboratories maintain a current Clinical Laboratory Improvement Amendments (CLIA) number with the U.S. Department of Health and Human Services for Medicare and Medicaid Services (CMS). Where noted, the individual laboratories are accredited by the College of American Pathologists (CAP), The Joint Commission (JC), and the Commission on Office Laboratory Accreditation (COLA). The accreditation programs assist our laboratories in achieving the highest standards of excellence to positively impact patient care.

The accreditation of our laboratories is a continual process. Our laboratories remain accredited until otherwise notified by their specific accrediting organization. Accreditation does not necessarily terminate on the date of the accreditation certificate. Documentation of any Bronson laboratory accreditation status is available by selecting the corresponding link below or by request.
